Truckers strike: Markets shut

Stir enters 8th day; daily trade worth Rs. 40 crore hit; prices to skyrocket

A loader fast asleep this morning as Bandipalya Market was closed for trade.

Mysuru, July 27 (RK&BCT)- Truckers remained off roads for the eighth consecutive day today to press for their demands even as the government said truckers cannot hold the government to ransom.

Lakhs of trucks (over 4,500 in Mysuru) have been off the roads since July 20 as truckers are protesting against high diesel prices, removal of all toll barriers across the country and reduction of third-party insurance premium.

The transport of essential commodities including agricultural and horticultural produce like fruits and vegetables have been affected and the farmers are among the worst affected. Loads of horticulture produce that are usually transported to Kerala and Tamil Nadu from Mysuru have not been sent and those goods that have arrived from other States have not been unloaded.

With no signs of an end to the strike, there are growing concerns on the impact on supply of essential commodities in case the strike continues. At present, there are no movements of trucks in and out of Mysuru and markets have come to a standstill. Supplies, both goods and vegetables, have been hit and the prices are set to skyrocket as it is a weekend.

Added to the truckers' strike, today the entire Bandipalya Market was shut as the traders extended their support to the strike. As if to coincide with the Lunar Eclipse this evening, the traders had declared that they will support the strike. Following this, over 1,200 shops and 400 godowns remained closed, seriously affecting business.

On an average, business worth Rs. 30 to 40 crore takes place at Bandipalya a day. Businessmen trade in pulses, onions, millets, rice, ragi and other goods. Today with the bandh, the regular auction was cancelled.

According to truck owners, the strike will be intensified and they were planning to withdraw supplies of fruits, vegetables and oil. Most of the manufacturing units in Mysuru have either staggered production or stopped production in total as there are no raw materials. The movement of incoming raw materials and outgoing finished goods has come to a standstill, said industrialists.

Beware of bad mood

Mood, being commonly understood as state of the mind, takes one from one state of mind to another, not always in a desirable change-over. If that change manifests itself as anger, the consequences happen in a chain of sorts as succinctly said in a Bhagavadgita verse 63 of chapter two. The fallout of anger, as stated in the ancient text, begins with passion resulting in loss of memory and instant disturbed state of mind and ultimately end to one's image in society. Animals too are known to be victims of mood, although speechless. It often pays to correctly associate the various sounds they produce with their mood in different circumstances such as hunger, assault, petting, ill treatment, confronting strangers, illness and so on. The role that mood of human beings play in different situations can make a fascinating study. A great deal of skills and smartness come in handy while interacting with others in daily life. Asking anyone to exercise *control* over anger almost amounts to asking for the moon. That advisory often goes unheeded even as some persons resort to remorse (*pashchaataapa*), as ordained in the land's ancient texts.

Psychologists should enlighten us on whether the seeds of anger (as a habit or otherwise) are sown in childhood itself, if not infancy. Some well-marked sections of society are stereotyped as vulnerable to anger under least provocation. Psychologists trace it to rush of adrenaline harmone into the blood stream impacting the brain function. The case of tiger as an angry creature is well-known.

Bad words spoken while one is angry even as they have fouled up one's relationship with others, such as between husband and wife or between the boss and his subordinate in office, may be taken back expressing an apology. It is likened to first breaking the rope into two and then tying the two parts with a knot, but the knot remains. Anger and depression are known to lead to two diametrical consequences, namely, anger may prompt reprisal or revenge on others while depression is known to cause suicidal tendencies harming oneself.

Thanks to many human frailties, particularly hatred-driven jealousy and irrepressible desire to exercise brute power, monarchs and dictators like Adolf Hitler (1889-1945) must be discredited for waging wars with disastrous consequences. Anger, the chosen mood for this column, can also help some people to get busy with constructive pursuits. Both anger and ability to rein in that mood are two sides of the same coin called *habit*.

EDITOR'S BOTTOMLINE

It's well-known that banks don't take responsibility if there is a burglary and robbers loot the lockers belonging to customers. In their defence, banks say they don't know the contents of the locker and are, therefore, not liable. When an individual takes a locker facility, he is made to sign an agreement that states that the bank will not be responsible for any loss or damage to the contents of the locker, thereby absolving the bank of all liabilities. Bank burglaries are not uncommon, though the banking regulator — the Reserve Bank of India (RBI) — doesn't share the data publicly. Last year, then Minister of State for Finance Santosh Kumar Gangwar said in Parliament that nearly Rs.1.8 billion was lost in 2,632 cases of robbery, theft, dacoity and burglaries at 51 banks between the financial years 2014-15 and 2016-17. *— Tinesh Bhasin in Business Standard.*

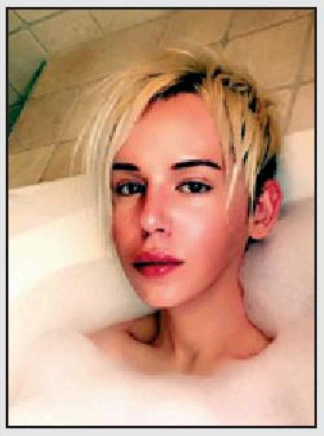
Artist creates ball-point pen drawings

Mexico: Alfredo Chamal, a 23-year-old artist is already one of the world's best ball-point pen artists in the world. He specialises in hyper-realistic drawings that look like artistic photographs from afar. It's only when the viewer approaches the artwork to take a closer look that he realises it is actually a hand-drawn large-scale drawing and not a photograph.

Based on photographs he takes himself, Alfredo's large scale drawings take several days to complete, but the end result is always more than worth the effort that goes into them.

Chamal's works have already been exhibited in art galleries around the world, and his works are in high-demand among art connoisseurs, fetching prizes of up to $5,000. Along with Victor Rodriguez, Alfredo Chamal is considered the main figure of New Mexican Psychorealism.

Man goes under knife for Britney Spears look



Los Angeles: A 31-year-old man from Los Angeles, California, is so obsessed with pop superstar Britney Spears that he has spent $80,000 on plastic surgeries over the last 14 years to look like her.

Bryan Ray says he knew there's was something special about Britney the first time he saw her and he wanted to be like her.

So at age 17, when the dentist designing his veneers asked him which celebrity smile he wanted to base his on, he answered almost instantly. But that was only the beginning of Ray's transformation, as over the last 14 years, he has had over 90 cosmetic surgeries to make himself look more like his idol.

Height of Penny Wise, Pound Foolish !!

Sir,

The recent Income Tax and ED raid in Bowring Institute (a reputed Club in Bengaluru), wherein three lockers belonging to one Avinash Amarlal Kukreja, a city-based financier was forcibly opened by Club authorities, throws up interesting aspects of human greed and avarice.

The Club had sent him a routine notice asking him to pay up Rs. 150 for three lockers after increasing the rentals from Rs. 5 per locker to Rs. 50. This gentleman refused to pay the increased rentals to save just Rs. 150 (!) which warranted the Club officials to break open his lockers and found cash, jewellery, diamonds and land documents worth nearly Rs. 850 crore! This greedy, super-rich gentleman eminently deserves to be rated as the world's biggest miser ! For all I know, this chap perhaps did not pay a single rupee Income Tax so far !

Let us hope the IT and ED officials concerned eventually prosecute all the culprits involved and the case does not meet the same fate as earlier IT cases.

This in a nutshell is the height of being Penny Wise, Pound Foolish !! Any learners from this sordid episode?

MLA Ramdas lands in K.C and J.C Layouts

Asks officials to relocate saplings planted under power lines

Mysuru, July 27 (SBD&KS)- MLA S.A. Ramdas has instructed the officials concerned to immediately take steps to provide all basic facilities including drinking water to K.C and J.C. Layouts besides instructing officials to relocate saplings planted under power lines.

The MLA instructed the officials after inspecting the two layouts along with officials in MCC Ward No. 52 (Earlier 65) yesterday.

Stating that no developmental works were taken up since five years at K.C and J.C Layouts, Ramdas instructed the accompanying officials to take immediate steps to solve these problems.

He asked the officials to supply water, which is being pumped from Melapura to city, develop the road connecting the burial grounds, take steps to prevent water being wasted from public taps, construct scientific footpaths, install LED streetlights on all roads, take steps for smooth flow of traffic on Chamundi Hill road, install an e-toilet to maintain hygiene and to construct building for an **anganwadi** in the layout.

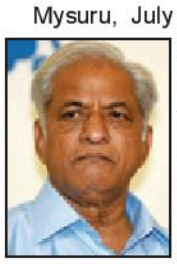
Do not plant saplings unscientifically: Stating that it has come to his knowledge that saplings were planted unscientifically under power lines in K.C. Layout, MLA Ramdas warned the officials not to repeat such mistakes in future and instructed them to relocate the saplings which were planted under power lines.

Instructing the officials to call for a tender and take up the developmental works of the park in front of Lalitha Mahal Palace which is stopped, he asked the officials to provide stone benches for walkers to take rest and protect trees.

He said that the project to develop 35 acre area into a **botanical garden** to make it as a tourist spot was conceived during the BJP Government and was taken up by MUDA which is now lying neglected. He asked the officials concerned to take action in this regard.

Lauding Jain Traders for maintaining cleanliness of the park in Venkatalingaiah Layout, the MLA decided to develop another park with the help of Residents Welfare Association and also develop a park in Jockey Quarters.

Writer heaps praises on Ministers N. Mahesh and GTD



K.S. Bhagawan

Mysuru, July 27- Writer and retired professor K.S. Bhagawan has welcomed Primary and Secondary Education Minister N. Mahesh's idea to introduce 'Open Book' system, which allows students to refer to text books while writing exams.

Addressing a press meet here yesterday, Bhagawan said that such 'Innovative thinking' will help in reviving the text book reading habit among children, with most of them largely dependent on guides these days.

Stating that N. Mahesh has been doing well ever since he took charge of his department, Prof. Bhagawan observed that the Minister may have mooted the idea in the best interest of students.

The writer also heaped praises on Higher Education Minister G.T. Devegowda (GTD), who initiated his department's plans during the Hindu month of Ashada, which is generally considered inauspicious. Poohpoohing the belief that Ashada is inauspicious, he said that it is during this time that the reservoirs in the State are brimming.

Taking a dig at Yeddyurappa for reportedly conducting the 'Maharudrayaga' and 'Shatha Chandika Yaaga,' he said that such practices are nothing less than superstition.

He slammed superstitious practices like conducting homas, yajnas and wearing a 'holy thread' around the wrist for good fortune.

"If rituals like homa and havana can defeat evil forces, let the rituals be conducted on India's borders with Pakistan and China," Bhagawan said and called upon the people not to indulge in such practices and say no to blind beliefs. JD(S) leaders Srinivas and Nagesh were present at the press meet.

Helpless Cupid & the Helpful Cross!

Fr. Fernandez

Newly-married Jacky and Asha!

Taking up the string of my narration from where I left off last week, I would like to remind readers here that truth can often be stranger than fiction and this is what amazing and sometimes incredible real life stories are made of. This is one such story of how **Rev. Fr. Mathias Fernandez**, the third Catholic Bishop of Mysuru, went beyond the call of duty to help a young man and his lady love to get married against very steep odds. In the mid sixties, my very close friend, **Prof. Jacob Chandy**, a very well-known former Professor of Economics at St. Philomena's College in our city, fondly known by all his friends and relatives as Jacky, was in love with his college-mate, **Asha,** a girl from a very well-known family in Coorg. Incidentally, she was an outstanding athlete too who then captained Mysore University in athletics.

Facing stiff opposition to this alliance from her family, the girl with the help of her fiancé, was forced to take refuge for some months in a convent at Kottayam in Kerala. Jacky could not think of marrying her immediately and supporting a family as he was jobless and had not even finished his education, with eight months still to go before appearing for his final MA examination. His father, **Prof. Varghese Chandy,** again a Professor of Botany at St. Philomena's College, was already looking after the upkeep of a large family comprising his nine siblings and a few cousins too who were staying with them, insisted that the marriage could take place only after Jacky completed his education and landed a job, however ordinary.

So the family was forced to put off this marriage for some more time. This did not go down well with Jacky's close friend, **Ashok Lazar** who felt that he was being very unfair to the girl by having drawn her away from her family and consigning her to a life of inconvenience amid sisters, in a far off convent where he could not visit her. So the friend dashed off a letter to Jacky's father highlighting the plight of the girl and pleading with him to do something to mitigate the sad situation by agreeing to an immediate marriage. He also posted a copy of the letter to Jacky himself, perhaps for necessary supportive action!

Armed with this document, Jacky, now the chivalrous knight, went to the Bishop's House one late night with the fond hope that if he could get the Bishop to speak to his father, the reluctant don would relent in his favour! Thankfully, Bishop Fernandez heard him patiently and after a long pause asked him to get into his car and they both headed to the Chandy home! The elderly Professor and his wife could only agree to what the head of their Church pleaded with them to do, having himself come all the way to their door. But they also explained to him the difficulties that they would face if they agreed to the marriage of their still jobless son.

The Bishop assured them that God, Almighty would find a way out and left the place. **Understandably, the ride back to the Bishop's House was perhaps the most ecstatic journey of Jacky's life!** Once there the Bishop rummaged through his wallets and handbags only to find to his dismay that there was not much ready cash on hand which he could give to help a desperate Jacky. Then he did something incredible that knocked the ground off from below the feet of the perplexed lad. **The Bishop took off his ceremonial gold and silver Cross from his neck and offered it to him, asking him to sell it away and use the money to not only get married immediately but also to run his home till he could complete his education and find a job!**

A stunned Jacky could only scream, "No my Lord, please do not do this. I cannot take your Cross and sell it away for my needs". Saying this he ran to where he had left his bicycle even as the Bishop was running after him and pedalled away hard to reach his home in a daze, panting hard.

When he narrated to his parents how the Bishop had almost pleaded with him to accept the Cross and use it to get married, they were aghast. While his mother was happy that he had not touched it, his father felt that he should have gracefully accepted the Bishop's offer of help instead of running away from him which was a very rude thing to do. However, they both advised him to go back to the Bishop's House immediately and apologise to him for his thoughtless behaviour. **So Jacky pedalled back once again to listen to what was perhaps his most wisening sermon from the Bishop at a most unearthly hour and received the best gift of his life; an angry and incensed Bishop's blessings and the burden of reluctantly bearing his Cross!**

He returned home and caught the very next bus to Cochin where his friend Ashok stayed. Once there he ran into an altogether unexpected problem. No one there was willing to believe that the Bishop had himself given away his Cross to him. They all suspected that he had stolen it in a desperate bid to mobilise some money to get married! He had a tough time convincing them that he had done no such thing. That was when Ashok's mother, **Mrs. Lazar,** intervened and said that there was no need to sell an object as hallowed as a Bishop's Cross to finance a wedding that would hardly have about twenty guests! So she offered to keep the Cross safely with her and gave whatever money she had with her to enable the wedding to take place!

And, the wedding did take place on 19th, June, 1967 in the Wellington Island Church and the Bishop's Cross soon returned safely to Mysuru once again, without having to bear the indignity of being sold or pawned and was respectfully handed back by a grateful Chandy family to Bishop Mathias Fernandez who wore it around his neck safely for the next eighteen years till he handed it over to me for its final safe-keeping!

City youth catches chain snatcher at Bengaluru

Mysuru, July 27 (RK&DM)- In an act of dare devilry, a youth from the city, who is working at Bengaluru, caught hold of a chain snatcher at Bengaluru last night.

S. Sharath, 25, son of Assistant Sub-Inspector Sathyanarayana attached to CAR and resident of Sardar Vallabhbhai Patel Nagar in the city, had gone to attend his sister's birthday at Kumaraswamy Layout in Bengaluru last evening. As Sharath was having dinner along with other guests at about 10.15 pm, two scooter-borne miscreants, who arrived at the venue under the guise of guests, yanked off his sister Shwetha's 40-gram gold chain and fled the spot. But an alert Sharath followed the scooter on his Apache motorcycle and succeeded in catching one of the miscreants after a hot chase of more than 8 kms amidst traffic while the other miscreant managed to flee with the scooter under the cover of darkness.

After nabbing the miscreant, he called the Kumaraswamy Layout Police, who rushed to the spot and took the chain snatcher, identified as Chetan of Yelachanahalli, into custody.

The Bengaluru City Police have commended Sharath's alertness and dare devilry in nabbing the chain snatcher, it is learnt.

Income Tax Returns filing extended till Aug. 31

New Delhi, July 27- The Central Board of Direct Taxes (CBDT) has extended the due date for filing of Income Tax Returns to Aug. 31, 2018, for categories of tax-payers who were to file their returns by July 31.

The decision comes days ahead of July 31 deadline, which several groups had requested the government to push to later date. The Central Board of Direct Taxes (CBDT) had notified the new Income Tax Return forms for assessment year 2018-19 on April 5. Experts said the introduction of new forms was leading to delays in filing of Returns.

The new forms were notified in April and tax-payers (whose accounts are not liable for audit) were allowed to e-file their ITRs till July 31. Upon consideration of the matter, the Central Board of Direct Taxes (CBDT) has extended the 'due date' for filing of ITRs from July 31, 2018 to August 31, 2018 in respect of the said categories of tax-payers, a Finance Ministry statement said.

Further, the CBDT had said non-filing of ITR before the due date from this assessment year would lead to a penalty of Rs. 1,000, Rs. 5,000 and Rs. 10,000, depending on when the returns were filed after the deadline. The fine for tax-payers having income under Rs. 5 lakh remained at Rs. 1,000.

MLA inspects Zoo Aquarium

Mysuru, July 27- The aquarium at Mysuru Zoo, half-built by the MCC and that has now been handed over to the Zoo Authority of Karnataka (ZAK) for refurbishing and maintenance was inspected by K.R. MLA S.A. Ramdas last evening.

He suggested to the Zoo authorities to take up refurbishment works soon and make it another tourist attraction.

The aquarium structure, built at a cost of Rs. 4.26 crore, is lying in a state of neglect and had become a place for illegal activities. With the Zoo taking over the responsibility of the aquarium, the city residents and tourists will soon have another landmark tourist attraction.

Inspecting the aquarium along with a team of officials from the Zoo and the MCC, the MLA said that an aquarium was required to project the city as a tourist destination. All over the world, tourist places have either an aquarium or a water park to attract tourists. Having the Zoo nearby will be an added attraction, he felt.

The present aquarium was designed on the lines of Malaysian Aquarium model six years back and Rs. 5 crore was released for the same. Unfortunately, the Aquarium structure was built and due to fund crunch, the place was neglected.

A meeting will be held on Aug. 6 with authorities of different companies handling such huge aquariums, he said. Ramdas asked Zoo Executive Director Ajit M. Kulkarni to ensure that the aquarium works meet the deadline as promised when it was handed over to them.

The MLA said that there must be a separate walkway from the Zoo to the Karanji Lake instead of tourists taking a roundabout route. He drew the attention of Zoo authorities towards the flow of sewage water into the Karanji Lake.

Ramdas said that he will call a meeting soon to discuss the issues faced by the Zoo.

PIL against Railway lines via Kodagu

HC gives two weeks to Govt. to make its stand clear

Government has to either say Yes or No to the project or it must say that the project is under consideration or underway

Col. (Retd) C.P. Muthanna

NOTE: The Railway Ministry's 'advice' to the Kerala government to 'seek specific approval' from the Ministry of Environment, Forest and Climate Change (MoEFCC) to carry out a survey for the proposed Thalassery-Mysuru Railway Line is not the real hurdle for the project. The Railways are merely clearing obstructions to the project that may be a ground for those who are wanting the project to be dropped and may make this a ground to go to a Court of Law.
The Railways' 'advice' only further confirms that the project is already under implementation.
—KBG, Editor-in-Chief

Bengaluru, July 27 (BCT)- The Karnataka High Court has asked the State Government to produce documentary evidence to prove its contention that the government is not taking up the controversial two proposed Railway lines that passes through Kodagu.

The Court was hearing a Public Interest Litigation petition against the Railway lines on July 25 (Wednesday) where the government advocate claimed that Karnataka is not taking up the projects. The Court has now given two weeks to the government to prove its claims.

The petition (WP 17990/2018) was filed on 24-4-2018 by President of Coorg Wildlife Society Col. (Retd) C.P. Muthanna who is also the Coordinator, **Save Kodagu and Cauvery Campaign.** The PIL had come for hearing on June 25 before a Division Bench headed by Chief Justice Dinesh Maheshwari that had directed the government to file its response by two weeks. The case, however, was heard a month later on July 25.

The respondents in the petition are Secretary, Ministry of Forests, Environment and Ecology, Ministry of Railways, Chief Secretaries of Karnataka and Kerala and Principal Chief Conservators of Forests, Karnataka and Kerala.

In his petition, Muthanna stated that the construction of two lines — one linking Thalassery in Kerala with Mysuru via Kodagu district and another linking Mysuru, Kushalnagar and Madikeri — will have disastrous consequences.

The petitioner contended that the said Railway line is also interconnected to Thalassery-Mysuru Railway Line project which shall connect and interconnect Karnataka and Kerala at the cost of severe damage to flora and fauna of Kodagu district. The Coorg Wildlife Society prayed the Court not to permit any such projects, either in the name of tourism or for commercial purposes.

The petitioner alleged that the entire railway project is a lobby controlled by the business and commercial tycoons of Kerala putting pressure on the Central Government to give a green signal and start this project without taking into consideration the severe ecological damage it could cause in Kodagu.

Arguing for the Karnataka government, its advocate said that the PIL was premature as the government has not taken up any such Railway projects nor it intends to do so. He argued that no decision or discussion has taken place between the governments of Kerala and Karnataka on the Railway projects.

However, B.R. Deepak, advocate for the petitioner told the Court that there were several documents obtained through RTI that prove that the work on the Railway lines was on and **Karnataka has in principle agreed for the same.**

The petitioner's advocate presented before the Court the directive of the Kerala govt. that has ordered a survey of the Railway lines and the sanctioning of Rs. 45 lakh for the survey purpose. Also, the advocate quoted Muthanna's letter written to Principal Chief Conservator of Forests highlighting how the Railway projects would destroy the eco-sensitive Kodagu district.

Considering the documentary evidence from the petitioner's side, the High Court considered the same as 'Cause of Action' and directed the government's advocate to produce documentary evidence to prove that Karnataka government has not initiated any work on the projects. He has to submit the same by two weeks.

Speaking to *Star of Mysore*, Muthanna said that the Karnataka government is now forced to spell out its stand. "Now the government must either say yes or no to the controversial projects. Or it must say that the projects are under consideration. It might be forced to file an affidavit in this regard," he said.

Kerala CM's office pushed for Thalassery-Mysuru Project

Meanwhile it has now come to light that Railway Ministry had 'advised' the Kerala government to 'seek specific approval' from the Ministry of Environment, Forest and Climate Change (MoEFCC) to carry out a survey for the proposed Thalassery-Mysuru Railway Line.

The Ministry's directive came in the wake of the Kerala government requesting the Ministry to move the MoEFCC for granting clearance to conduct a detailed survey in the forest area for preparation of a Detailed Project Report (DPR) of the proposed new line.

Sources said that the Kerala Chief Minister's Office had pushed for the proposed Thalassery-Mysuru Railway Project in spite of the objections raised by the Department of Forests and Wildlife over serious ecological and social issues. The CM's office had directed the department concerned to carry out the survey of the project.

The proposed line passes through the forest belts of both Karnataka and Kerala. Mandatory environmental clearance have to be obtained from multiple agencies, including the regional office of the Ministry of Environment, Forest and Climate Change, and finally secure the recommendations of the National Board for Wildlife, chaired by the Prime Minister, and also the Supreme Court. The project passes through the 49-km stretch in the forests of Kerala region and through 35 km of ecological sensitive zones, including 11 km of the thick Nagarahole National Park in Karnataka.

Shrunga; Lahari: Vyjayanthi Adiga; Vikram: Vishal Patil; Patil: Sunil Kumar.

Synopsis: The play, which boasts of being the first play in Kannada to discuss the homosexuality of a woman, foregrounds a young girl, her journey to self-discovery and coming-out story of a young girl by name Preethi, and the life-changing moments in Preethi's struggle to cope with being "different." The intriguing play is set in a college and is a stark commentary on love.

The play focuses primarily on Preethi's love affair, but narrated through the eyes of her friend, Ajay, the central character. Their friendship goes through a succession of quick, dramatic growth spurts that reveal the complexity of friendship and show that Ajay ultimately comes to represent: a homophobic society that keeps its blinders on to naturalise straight relationships as the norm.

The gradual unravelling of her sexuality, her confusion regarding her sexual identity, her violent attraction towards her love and the blossoming friendship between her and a male friend, form the central points of the play.

The play is weaved into a complex character with intricate plotlines that break the taboo on lesbian identities.

Kargil Vijay Diwas: City pays homage to war martyrs

Students present a dance feature on Kargil war at Kalamandira in city last evening. Picture right shows a section of audience watching the event.

Deputy Commissioner Abhiram G. Sankar

Mysuru, July 27 (SBD&BCT)- Kargil Vijay Diwas is celebrated on July 26 every year in the honour of Kargil War heroes who got India victory in the 1999 Kargil War with Pakistan. Kargil Vijay Diwas was named after the success of Operation Vijay.

The Kargil War in the mountains of Jammu and Kashmir took place after Pakistani troops crossed the Line of Control (LoC) and occupied Indian posts on the heights. It took about three months for the Indian forces to recapture the posts.

Paying a tribute to the Kargil War heroes, Deputy Commissioner (DC) Abhiram G. Sankar said that the onus of protecting and building the nation lies on everybody and it is the responsibility of all to fight, sacrifice and work for the betterment of the country.

He was speaking at "Kargil Vijayotsava" organised by Military Veterans Welfare Association and NCC Mysore Headquarters at Kalamandira last evening.

Recalling the contribution of soldiers serving at our borders, the DC said that though the soldiers have enough resources to lead a comfortable life, they were serving in hostile conditions for the cause of the nation. "If this is not selfless sacrifice, then what is it," the DC asked.

Advising youngsters to rise to the occasion whenever the unity and integrity of the country is questioned, the DC regretted that of late, many youths are only active on social media platforms. "We don't cross-check the messages on social media and blindly forward them into various groups.

This trend is misused by anti-nationals and rumour mongers to incite violence and spread hatred. We, as educated youth, must take utmost care while commenting or passing on messages on social media," he said.

"Fighting at daunting altitudes and seemingly unassailable peaks, what our Indian troops achieved at Kargil was nothing short of a miracle. We must inculcate the spirit of nationalism and sacrifice," the DC said.

Retired Vice Chancellor of University of Mysore Prof. S.N. Hegde called upon the NCC cadets to take up issues like cleanliness and pollution and asked them to work pro-actively in their respective localities.

"Though India has a strong youth force, there are many problems that are plaguing it. Youth can play a decisive role in nation building," he opined.

Earlier, Brigadier (Retd.) Vinod Adappa who is the President of Military Veterans Welfare Association gave a power-point presentation about India's victory at Kargil.

Over 500 Indian Armed Forces personnel were martyred during the three-month-long war. The shelling from Pakistan began on May 9, 1999 and by the end of May, the Indian Air Force launched massive air strikes to regain control of Kargil mountain ranges, he said.

Retired Major General C.K. Karumbaya, Military Veterans Welfare Association office-bearers P. Lakshman, M.C. Balasubramanya, M.S. Purushotham and others were present.

Students of Vijaya Vittala Educational Institutions rendered the welcome song, NCC students of Good Shepherd Convent danced to a patriotic song and girl students of JSS College presented a dance feature on Kargil victory.

Indian Defence Force unique in the world: Sulibele

'Fighting inside enemy territory is not as simple as winking in Parliament'

24 families of martyred soldiers felicitated at an event organised by Mysuru unit of Yuva Brigade in city last evening.

Mysuru, July 27 (YDS&BCT)- "Indian Defence Force is unique in the world as no other force has such capacity as an Indian soldier. Indian soldiers are trained to face hostile conditions on land, sea and air and he can deliver a death blow to any opponent."

These were the words of Chakravarthy Sulibele who was delivering a key-note address at 'Kargil Vijay Divas' organised by Mysuru unit of Yuva Brigade at Jayamma Govindegowda Kalyana Mantap in city last evening.

"Indian soldiers can fight the enemy in snow-clad Himalayas and Kashmir, hot and desolate deserts of Rajasthan and the turbulent seas at coastal areas and also underwater. Such capabilities are rare to find in any defence force across the world," he said.

Heaping praises on the Armed Forces, the youth leader said that while the soldiers are sacrificing their lives at the borders, some vested interests and so called liberals preach peace only to a particular section of the society while the real violence mongers are shielded at any cost.

"These liberals oppose whenever a terrorist is hanged or sent to jail as they call it as a violation of human rights. Sadly, they forget that it is the Court that has declared a person a terrorist, guilty of massacring innocent Indians," he regretted. "These liberal forces do not raise their voice when a soldier is killed but are very sharp in their criticism when a terrorist or an anti-national is killed by a soldier. These pseudo-nationalists are a real threat for the country," Sulibele opined.

Lashing out at Congress President Rahul Gandhi for belittling the sacrifice of soldiers to serve the interests of his family and his party, Sulibele said that when an Indian soldier enters an enemy territory, he tries to eliminate as many enemies as possible, thereby risking his own life. "It is not as simple as Rahul Gandhi winking inside Parliament," he said.

"When Congress was ruling India under Manmohan Singh's Prime Ministership, Indian soldiers had no free hand and their each move depended on political considerations. But the Defence Forces got a free hand after Narendra Modi took over the country's administration and so far, over 800 terrorists have been killed in Jammu and Kashmir," he said.

On the occasion, 24 families of martyred soldiers including Hemachand, Prakash, Rangaiah, Mahesh, Avinash, Uday, Shekar, Yoganand, Phaniraj, Nagesh, Sandeep Kumar, Sundar Raj, Sharath, Shivanand, Puttaswamy and Ashok were felicitated.

WORD OF THE DAY

Sophistry

Pronunciation: SAH-fuh-stree.

Meaning: Subtly deceptive reasoning or argumentation; an argument apparently correct in form but actually invalid.

Origin: The original Sophists were ancient Greek teachers of rhetoric and philosophy prominent in the 5th century B.C.E. In their heyday, these philosophers were considered adroit in their reasoning, but later philosophers (particularly Plato) described them as sham philosophers, out for money and willing to say anything to win an argument. Thus, sophist —which can be traced back, via the Greek sophistēs ("wise man" or "expert") and sophizesthai ("to become wise"), to sophos, meaning "clever" or wise"—earned a negative connotation as "a captious or fallacious reasoner."

Examples: The newspaper editorial warned readers to beware politicians who use sophistry to convince voters to support policies not in their own best interests. "Drama, the art in which perspectives are brought into collision, is a powerful antidote to the sophistry and sensationalism nullifying our capacity for intelligent debate." — Charles McNulty, The Los Angeles Times, 31 Dec. 2017.

THE ODD WORD

Cacoethes

An urge to do something inadvisable.

PHRASE OF THE DAY

Silence is golden

Meaning: A proverbial saying, often used in circumstances where it is thought that saying nothing is preferable to speaking.

Origin: The origin of this phrase is obscured by the mists of time. There are reports of versions of it dating back to Ancient Egypt. The first example of it in English is from the poet Thomas Carlyle, who translated the phrase from German in Sartor Resartus, 1831, in which a character expounds at length on the virtues of silence: "Silence is the element in which great things fashion themselves together; that at length they may emerge, full-formed and majestic, into the daylight of Life, which they are thenceforth to rule. Not William the Silent only, but all the considerable men I have known, and the most undiplomatic and unstrategic of these, forbore to babble of what they were creating and projecting. Nay, in thy own mean perplexities, do thou thyself but hold thy tongue for one day: on the morrow, how much clearer are thy purposes and duties; what wreck and rubbish have those mute workmen within thee swept away, when intrusive noises were shut out! Speech is too often not, as the Frenchman defined it, the art of concealing Thought; but of quite stifling and suspending Thought, so that there is none to conceal. Speech too is great, but not the greatest.

We all want to be famous people, and the moment we want to be something we are no longer free. **— Jiddu Krishnamurti**
